2. TOTAL Woody Material Inputs to the mill

Current published forestry statistics show a difference between removals and consumption of roundwood. In order to help identify the source of this discrepancy, please estimate the approximate breakdown of woody material consumed in the mill by origin, below.

*Other refers to woody material other than stemwood & bark (e.g. brash and stumps). Please specify type of material, if consumed.

4. CERTIFICATION:

Does the mill have a Chain of Custody Certificate? YES NO
(tick one)

If you have answered "Yes" to the above, please respond to the following questions. Otherwise, please leave blank.

What percentage of input volume is from Certified sources? %

What certified percentage / claim system do you use on sales of all products? *(tick)*

100%

Mixed sources

Volume credit

Which certification label(s) do you use? *(tick)*

FSC

PEFC

5. EMPLOYMENT (at this site)

Please provide an estimate of the mill's total employment, expressed as Full-Time Equivalents (FTEs).

Include both direct employees (those for whom you are responsible for paying wages and National Insurance contributions) and other employment (any others undertaking work for you, including contractors and their employees). To express employment as FTEs, please include a rough estimate of time for those who work a part-year for the mill. For example, count a full-time employee working slightly more than half the time for the mill as 0.6, or an employee who works part-time for 4 months as 0.2.

For haulage employment, please only include those employed directly. Please exclude any contract haulage employment and any employment at the site not directly related to the mill (e.g. exclude work producing pallets or other wood products from sawnwood).

Total Employment **Full-Time Equivalents**
