

Pre-Release Access to Official Statistics:

National Forest Inventory statistics for England and aligned areas

Introduction

The Forestry Commission's arrangements for pre-release access to Official Statistics are described in a Pre-Release Access Statement¹.

This document supplements the statement by giving the names and/or job titles of all those persons to whom pre-release access has been granted to the National Forest Inventory statistics for England and aligned areas. The report covers 2 forms of pre-release access:

- Part 1 provides a list of those receiving pre-release access to the Official Statistics in their final form for briefing purposes. As this is a release covering England, the pre-release access period is **limited to 24 hours**.
- Part 2 provides a list of those receiving pre-release access for quality assurance purposes.

The justification for giving advance access to each listed recipient will be available on request.

Sheila Ward
Forestry Commission Lead Official for Statistics
Updated August 2017
